Subject: RE: Request for Information - Possum Point

Susan,

In response to your RFI I am attaching the following information:

- Analytical data for S107 (proposed 010): We were able to find analyses for a number of parameters that were performed on a sample collected on September 9, 2003. These data were provided with our 2003 application for reissuance of the VPDES permit and are the only data that we have been able to find for this outfall.
- A technical memo from our consultant GAI that provides the remainder of the information that you requested.

Please let me know if you have any questions about this information.

Thank you,

Ken

Subject: Request for Information - Possum Point

Ken, Jeff –

Thank you again for your assistance with the site visit on Tuesday. We appreciate your taking the time.

As we discussed on site, there are a few additional items that we are requesting.....

- Any analytical data collected for S107 (proposed 010);
- The volume of water currently stored in Ash Pond D;
- A projection as to the time needed to complete dewatering of Ash Pond D;
- A confirmation of the maximum flow from the treatment system; and
- A description of the treatment system.

If you could, please provide this information by December 2, 2015. If you have any questions please don't hesitate to contact me.

Hope you have a Happy Thanksgiving.

Thanks,
Susan
